# INTRO OF FINANCIAL MARKET

A FINANCIAL MARKET IS A MARKETPLACE WHERE INDIVIDUALS AND INSTITUTIONS CAN TRADE FINANCIAL SECURITIES, COMMODITIES, AND OTHER FUNGIBLE ITEMS OF VALUE AT LOW TRANSACTION COSTS. THERE ARE TWO PRIMARY TYPES OF FINANCIAL MARKETS: CAPITAL MARKETS AND MONEY MARKETS. CAPITAL MARKETS DEAL WITH LONG-TERM INVESTMENTS, INCLUDING STOCKS AND BONDS, WHILE MONEY MARKETS HANDLE SHORT-TERM DEBT INSTRUMENTS. FINANCIAL MARKETS ARE CRUCIAL FOR ECONOMIC EFFICIENCY, PROVIDING A PLATFORM FOR RAISING CAPITAL, TRANSFERRING RISK, AND FACILITATING LIQUIDITY. THEY HELP ALLOCATE RESOURCES, FACILITATE THE IMPLEMENTATION OF MONETARY POLICY, AND PROVIDE OPPORTUNITIES FOR INVESTORS TO DIVERSIFY THEIR PORTFOLIOS.
